Content-Type: text/plain; charset="UTF-8"

I am pleased to announce the release of Apache ActiveMQ Artemis Console
1.0.0

Downloads are available at :

<https://activemq.apache.org/components/artemis-console/download/>

Release Notes can be found at:

<https://issues.apache.org/jira/projects/ARTEMIS/versions/12354639>

This is the first release of the new console which is a replacement for the
current console shipped with Artemis. It is written using React and
Patternfly and is based on the HawtIO project.

The console is available to run standalone and will be embedded in a future
release of Artemis.

For a list of features and the documentation see:

<https://activemq.apache.org/components/artemis-console/>

Many thanks to all who contributed to the new console.

Andy Taylor

Hello Andy,

thanks for providing the new console. I=E2=80=99m looking forward to play a round with it.

Is there an option to run the console on another server than the broker=E2=80=99s server?

I have started console with Jetty on my workstation. If I try to connect to a remote Artemis I get =E2=80=9CHost not allowlisted=E2=80=9D if pressing =E2=80=9CTest connection=E2=80=9D button in =E2=80=9CEdit Connection=E2=80=9D.

Kind regards,
Arno

Hello Andy,

adding remote brokers server name to =E2=80=9CproxyAllowlist=E2=80=9D value=

s in web.xml advanced me a step further: Test connection is successful now.

Unfortunately attempting to connect o broker with username and password alw=ays results in =E2=80=9CIncorrect username or password=E2=80=9D response in=new Artemis Console.

If username or password really don=E2=80=99t fit, the broker log contains a=line like these: (first line is for admin with wrong password, second line=for non-existing user)

2024-10-10 14:52:56,002 WARN [io.hawt.system.Authenticator] Login failed d=ue to: Password does not match for user: admin

2024-10-10 14:53:56,788 WARN [io.hawt.system.Authenticator] Login failed d=ue to: User does not exist: hautarzt

If username and password are correct, nothing is added to brokers log, but =I still get the =E2=80=9CIncorrect username or password=E2=80=9D response i=n new Artemis Console.

Broker version is 2.31.2, what=E2=80=99s maybe to old. But I didn=E2=80=99t=find a hint about supported Artemis broker versions in [https://activemq.ap=ache.org/components/artemis-console/](https://activemq.apache.org/components/artemis-console/)

Kind regards,

Hello Andy,

thanks for providing the new console. I=E2=80=99m looking forward to play a=round with it.

Is there an option to run the console on another server than the broker=E2=80=99s server?

I have started console with Jetty on my workstation. If I try to connect to=a remote Artemis I get =E2=80=9CHost not allowlisted=E2=80=9D if pressing =E2=80=9CTest connection=E2=80=9D button in =E2=80=9CEdit Connection=E2=80=9D.

Q4PRwsXpUXyqaALJryxDA\$%3eThis>is the first release of the new console which=
is a replacement for the

current console shipped with Artemis. It is written using React and

Patternfly and is based on the HawtIO project.

The console is available to run standalone and will be embedded in a future

release of Artemis.

Subject: Re: [ANNOUNCE] ActiveMQ Artemis Console 1.0.0 released
To: users@activemq.apache.org
Content-Type: text/plain; charset="UTF-8"
Content-Transfer-Encoding: quoted-printable

In future please start a new specific thread rather than reusing
release announcement threads.

In terms of Artemis releases I believe the new console has mainly only
been tried later in its development against 2.36.0 and 2.37.0. I do
now vaguely recall a code change being made on the broker side though
to support the new console specifically, so now that you mention it I
wouldn't be surprised if newer releases such as those are actually
needed, though I don't know that for sure.
