I'm not aware of any issues like the one you describe. If you could write

./CAF+kE_TkiauGXXW7_c6ybuaj4o4Njcmq9zk_V_9BXRrjBh5ECA@mail.gmail.com.mbx.txt
Tue Nov 12 15:15:02 2024 2

up a reproducer that would be awesome.

Also, please clarify the following:

- Broker version
- Client implementation and version

Thanks!

Justin

Greetings,

Are there known issues with a =E2=80=9Cfiltering consumer=E2=80=9D calling =
receive(timeout)?

I=E2=80=99ve found that we need to call receive twice, e.g.

```
try (var consumer =3D session.createConsumer(destination, selector)) {  
    Message message =3D consumer.receive(PURGE_TIMEOUT_MS);  
    if (message =3D=3D null) {  
        message =3D consumer.receive(PURGE_TIMEOUT_MS);  
    }  
    =E2=80=A6  
}
```

If we only call it once, the message is never received, regardless of the t=
imeout value. This kind of looks like ARTEMIS-3916, but that was for a leg=
acy JMS client and was reported fixed in 2.25.

If this doesn=E2=80=99t sound familiar, I can write up a reproduction test.

Thanks
John
