Subject: Warning, Transport ... failed, not attempting to automatically reconnect?
To: users@activemq.apache.org
Content-Type: multipart/alternative; boundary="0000000000002e21400624fa09b0"

--0000000000002e21400624fa09b0
Content-Type: text/plain; charset="UTF-8"
```

We are running an application using ActiveMQ (currently, version 5.18.3)
  with multiple queues and listeners since several years.
Has worked fine, so far --- only, in the last week
  we are sometimes seeing Warnings like this in the log-files:

```
2024-10-18 14:23:07,844 [ActiveMQ Transport:
tcp:///127.0.0.1:61616@44966][FailoverTransport:283]
WARN  org.apache.activemq.transport.failover.FailoverTransport – Transport
(tcp://127.0.0.1:61616) failed, not attempting to automatically reconnect
java.io.EOFException: null
        at
java.base/java.io.DataInputStream.readFully(DataInputStream.java:210)
        at
java.base/java.io.DataInputStream.readInt(DataInputStream.java:385)
        at
org.apache.activemq.openwire.OpenWireFormat.unmarshal(OpenWireFormat.java:280)
        at
org.apache.activemq.transport.tcp.TcpTransport.readCommand(TcpTransport.java:240)
        at
org.apache.activemq.transport.tcp.TcpTransport.doRun(TcpTransport.java:232)
        at
org.apache.activemq.transport.tcp.TcpTransport.run(TcpTransport.java:215)
        at java.base/java.lang.Thread.run(Thread.java:1583)
```

Evertyhing still seems to work fine without issues.
I'm just a bit concerned what is causing these warnings?

Anyone can explain what's going on?

Hi-

This error looks to be caused by zero bytes being sent across the wire, =
which is unexpected and leads to the EOFException to be thrown and then =
logged at a WARN level on the broker-side.=20

Does your broker have a load balancer, health check or security scanner =
running against the ActiveMQ broker port? These tools would make a =

connection and not send any data across, which could lead to this =
scenario.

Thanks,
Matt Pavlovich

Additional info=E2=80=94 there is a new configuration flag =
displayStacktrace (default: false) that will suppresses the stack trace =
in the log that was introduced before your reported version of v5.18.3.=20=

Check your configuration to be sure you do not have this flag enabled on =
your transportConnector(s) in your broker configuration file.

If that option is not present, please share a redacted version of your =
configuration file to this email thread.

Thanks,
Matt Pavlovich=20

I am trying to setup my mail servers correctly, pretty much trial and error=
 method at this point. If you have any helpful information to put me on the=
 right path, I would appreciate it
Thank you   On Monday, October 21, 2024 at 11:41:08 AM EDT, Matt Pavlovich=
 <mattrpav@apache.org> wrote: =20

 Additional info=E2=80=94 there is a new configuration flag displayStacktra=
ce (default: false) that will suppresses the stack trace in the log that wa=
s introduced before your reported version of v5.18.3.=20

Check your configuration to be sure you do not have this flag enabled on yo=
ur transportConnector(s) in your broker configuration file.

If that option is not present, please share a redacted version of your conf=
iguration file to this email thread.

Thanks,
Matt Pavlovich=20
