Hello Samuel-

Upgrades are fairly straightforward. You can generally copy the same =
configuration file from 5.13.x to 5.17.x without much headache to verify =
the functionality is the same. If you have an advanced configuration or =
use case, you may need to seek an expert for assistance.

For the cutover, a couple of options:

1. Turn both on and forward all messages from the 5.13.x to the 5.17.x =
using a static network connector to do store-and-forward.

2. Naturally drain the 5.13.x broker so it is empty, and simply start =
the 5.17.x broker to handle new messages

./B9567F87-D390-457F-BB95-A3DDD92C1D40@gmail.com.mbx.txt
Tue Nov 12 15:15:02 2024   3

3. Copy kahadb data over from 5.13.x to 5.17.x

#1 and #2 are generally the better options. #3 can get tricky if you do =
advanced stuff like scheduling, etc.

Thanks,
Matt Pavlovich

Dear all,

I have to upgrade ActiveMQ classic for one of our customers.

The current version is 5.13.1 and I need to upgrade it to 5.17.6.

I couldn=E2=80=99t find any documentation regarding the upgrade process on =
the official website.

Are there any steps I should be aware of before upgrading ActiveMQ classic =
?

Best regards,

Samuel
